

We are focused on improving communities  
and the lives of those who live in them.

# CREATING COMMUNITIES THAT INSPIRE

We are a real estate development company specializing in identifying and developing properties for the betterment of our community. Our approach focuses on finding properties with the greatest potential for long-term value creation, as well as an intention

to improve the surrounding communities – including potentially adding density where it adds value. We use a variety of metrics and criteria to evaluate potential properties, such as location, zoning, current and future demand for space, and development costs.

**200+**

properties built & sold  
in the last 12 years

**255 SQ FT**

development planned across  
the Denver Metro Area

**15+**

neighborhoods where  
you can see our work
